## DETAILED ACTION

1. Applicant's arguments filed 2/28/2005 have been fully considered but they are not persuasive.

### ***Claim Rejections - 35 USC § 103***

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 30-58 remain rejected under 35 U.S.C. 103(a) as being unpatentable over Kalina (US Patent No. 5,970,480) as stated in the prior Office action.

3. Applicant's representative argues that the Kalina reference issued less than one year prior to the filing of the instant application and that the Kalina reference is not prior art to the claimed invention.

### **In response:**

The Examiner respectfully disagrees with the applicant's assertion. Applicant is reminded that in applying a reference as a prior art, an Examiner may use the filing date of the reference as a date prior of the applicant's filing date. In this instant application, the Examiner has relied on the teachings of Kalina (US Patent No. 5,970,480) with an earlier filing date of April 14, 1997 from the applicant's filing date of May 24, 2000.

Accordingly, the Examiner has properly applied the Kalina reference and thus complied with 35 USC 103(a) of the statute. Thus, applicant's arguments on the reliance of the issued date of the Kalina patent are not persuasive.

Applicants representative then argues that the inventor has demonstrated in his Confidential Executive Summary sent to him by Charles Hamm of Independence Savings Bank on that date (attached to Mr. Palmeri's declaration) that the inventor has made attempts to implement the invention prior to the filing of the instant application and then argues that the Kalina reference is not prior art.

**In response:**

The applicant's declaration does not show any nexus or tied with the claimed invention. Also, the documents or communications between the inventor's Mr. Palmeri and Charles Hamm do not hint or show that the applicant has conceived the claimed invention prior to the filing date of the Kalina reference. Furthermore, there are no clear indications of a date of the inventor's Declaration noting that the claimed invention was conceived prior to the filing of the Kalina reference.

Thus, applicant's arguments are not convincing.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
